1152

Plastic Roll

Characteristics

Masking Plastic with integrated masking tape for quick and handy masking of car parts. Holds all overspray.

Ideal for fast masking of large areas. 1152 is electrostatically charged, and therefore self-adhesive.

Tech Tip

- 33 m roll in the widths 55, 110 and 140 cm
- for fast and rational masking work
- masking foil and masking tape for application in one single process
- special foil with self-adhesive, electro statically charged and excellent adherence on paint
- dispenser system for refill packs
