

Art.-No.:6.5250.0500

5250

Underbody Protection Wax Spray

Characteristics

5250 is an underbody protection spray based on waxes. Especially developed for the protection of vehicle underbodies. This product achieves a very good adhesion on several substrates. 5250 assures an excellent protection against corrosion.

Tech Tip

- very good corrosion protection
- very good adhesion on several substrate
- quick skinning (approx. 2 h)
- fast drying
- resistant against bases, splash water and salt water

Application

All substrates must be clean, dry and free from grease. Shake can vigorously for approx. 3 mins. prior to use.

Spraying distance approx. 20 - 30 cm.

After use, turn can upside down and spray until the valve is clean, this prevents the valve from clogging up.

Pre-cleansing with 4CR silicone remover.

Technical Data

Colour	black
Content	500 ml
Temperature resistance	-25°C till +80°C
Processing condition	15°C - 25°C

Storage and Transportation

The product may not be stored under +10°C and above +30°C the packaging must be protected from direct sunlight and heat. Cool and moisture free stored the product is tenable for a minimum of 2 years in the unopened original packaging.
