

# SAFETY DATA SHEET

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758

# **SECTION 1: Identification of the substance/mixture and of the company/undertaking**

| : MIX 138   |
|---|
| : STANDOBLUE BASECOAT MIX 138 SILVERDOLLAR COARSE |
| : Liquid.   |
| : 4024669501384; 4024669622263; 4024669629019     |
| : 22 April 2024                                   |
| : 1.1   |
| : 12 January 2024                                 |
|   |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses      | : C | Coating component.                   |
|----------------------|-----|--------------------------------------|
| Uses advised against | : N | lot for sale to or use by consumers. |

## 1.3 Details of the supplier of the safety data sheet

| Axalta Coating Systems Ger                           | many GmbH & Co. KG          |
|--|-----------------------------|
| Christbusch 25                                       |                             |
| DE 42285 Wuppertal                                   |                             |
| +49 (0)202 529-0                                     |                             |
| e-mail address of person<br>responsible for this SDS | : sds-competence@axalta.com |

## 1.4 Emergency telephone number

| <u>Supplier</u>    |                     |
|--------------------|---------------------|
| Telephone number   | : +(44)-870-8200418 |
| Hours of operation | :                   |

# **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

| : | Mixture |
|---|---------|
|   | :       |

# Classification according to UK CLP/GHS

Eye Dam. 1, H318 Aquatic Chronic 3, H412

The product is classified as hazardous according to UK CLP Regulation SI 2019/720 as amended.

| Ingredients of unknown<br>toxicity    | <ul> <li>2 percent of the mixture consists of component(s) of unknown acute oral toxicity</li> <li>1.2 percent of the mixture consists of component(s) of unknown acute dermal toxicity</li> </ul> |
|---------------------------------------|--|
|                                       | 1.2 percent of the mixture consists of component(s) of unknown acute inhalation toxicity   |
| Ingredients of unknown<br>ecotoxicity | : Contains 8.7% of components with unknown hazards to the aquatic environment  |
| See Section 16 for the full te        | xt of the H statements declared above.   |

| Date of issue/Date of revision | : 4/22/2024 | Date of previous issue | : 1/12/2024 | Version : 1.1 | 1/17 |
|--------------------------------|-------------|------------------------|-------------|---------------|------|
|--------------------------------|-------------|------------------------|-------------|---------------|------|

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758 STANDOBLUE BASECOAT MIX 138 SILVERDOLLAR COARSE

# **SECTION 2: Hazards identification**

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements<br>Hazard pictograms   | : |   |
|---|---|---|
| Signal word   | : | Danger  |
| Contains  | : | propan-1-ol   |
| Hazard statements   | : | ₩318 - Causes serious eye damage.<br>H412 - Harmful to aquatic life with long lasting effects.  |
| Precautionary statements  |   |   |
| Prevention  | : | <ul> <li>P280 - Wear eye or face protection.</li> <li>P273 - Avoid release to the environment.</li> </ul>   |
| Response  | : | P305 + P351 + P338, P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. |
| Storage   | : | Not applicable.   |
| Disposal  | : | Not applicable.   |
| Supplemental label<br>elements  | : | EUH208 - Contains 3-aminopropyltriethoxysilane. May produce an allergic reaction.   |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : | Not applicable.   |
| 2.3 Other hazards   |   |   |
| Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | : | This mixture does not contain any substances that are assessed to be a PBT or a vPvB.   |
| Other hazards which do not result in classification   | : | None known.   |

# **SECTION 3: Composition/information on ingredients**

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

# <u>Type</u>

[1] Substance classified with a physical, health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

# **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

| Eye contact  | : Get medical attention immediately. Call a poison center or physician. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician.  |
|--------------|---|
| Inhalation   | <ul> <li>Get medical attention immediately. Call a poison center or physician. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.</li> </ul>                                     |
| Skin contact | : Get medical attention immediately. Call a poison center or physician. Flush<br>contaminated skin with plenty of water. Remove contaminated clothing and shoes.<br>Wash contaminated clothing thoroughly with water before removing it, or wear<br>gloves. Continue to rinse for at least 10 minutes. Chemical burns must be treated<br>promptly by a physician. Wash clothing before reuse. Clean shoes thoroughly<br>before reuse.   |
| Ingestion    | : Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Chemical burns must be treated promptly by a physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

| STANDOBLUE BASECOAT MIX 138                       | SILVERDOLLAR COARSE   |
|---|---|
| SECTION 4: First aid                              | 1 measures  |
| Protection of first-aiders                        | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |
|   | ns and effects, both acute and delayed  |
| Over-exposure signs/symp                          | <u>ptoms</u>  |
| Eye contact                                       | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness  |
| Inhalation  | : No specific data.   |
| Skin contact                                      | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur  |
| Ingestion   | : Adverse symptoms may include the following:<br>stomach pains  |
| 4.3 Indication of any immed<br>Notes to physician | <ul> <li>iate medical attention and special treatment needed</li> <li>Treat symptomatically. Contact poison treatment specialist immediately if large</li> </ul>  |
| Specific treatments                               | <ul><li>quantities have been ingested or inhaled.</li><li>No specific treatment.</li></ul>  |
| SECTION 5: Firefigh                               | ting measures   |
| 5.1 Extinguishing media                           |   |
| Suitable extinguishing media                      | : Recommended: alcohol-resistant foam, CO <sub>2</sub> , powders, water spray.  |
| Unsuitable extinguishing media                    | : Do not use water jet.   |
| 5.2 Special hazards arising                       | from the substance or mixture   |
| Hazards from the substance or mixture             | : Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard.  |
| Hazardous combustion<br>products                  | : Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.   |
| 5.3 Advice for firefighters                       |   |
| Special protective actions for fire-fighters      | : Cool closed containers exposed to fire with water. Do not release runoff from fire to drains or watercourses.   |

# **SECTION 6:** Accidental release measures

Due to the organic solvents content of the mixture:

## 6.1 Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | : | Exclude sources of ignition and ventilate the area. Avoid breathing vapour or mist.<br>Refer to protective measures listed in sections 7 and 8.   |
|--------------------------------|---|---|
| For emergency responders       | : | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |

: Appropriate breathing apparatus may be required.

Date of issue/Date of revision

**Special protective** 

equipment for fire-fighters

# **SECTION 6: Accidental release measures**

| 6.2 Environmental | : Do not allow to enter drains or watercourses. If the product contaminates lakes, |
|-------------------|--|
| precautions       | rivers, or sewers, inform the appropriate authorities in accordance with local     |
| F                 | regulations.   |

## 6.3 Methods and material for containment and cleaning up

Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Preferably clean with a detergent. Avoid using solvents.

| 6.4 Reference to other | : See Section 1 for emergency contact information.                          |
|------------------------|---|
| sections               | See Section 8 for information on appropriate personal protective equipment. |
|                        | See Section 13 for additional waste treatment information.                  |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

## 7.1 Precautions for safe handling

Due to the organic solvents content of the mixture:

Prevent the creation of flammable or explosive concentrations of vapours in air and avoid vapour concentrations higher than the occupational exposure limits.

In addition, the product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard.

Keep away from heat, sparks and flame. No sparking tools should be used.

Avoid contact with skin and eyes. Avoid the inhalation of dust, particulates, spray or mist arising from the application of this mixture. Avoid inhalation of dust from sanding.

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.

Put on appropriate personal protective equipment (see Section 8).

Never use pressure to empty. Container is not a pressure vessel.

Always keep in containers made from the same material as the original one.

Comply with the health and safety at work laws.

### Information on fire and explosion protection

Vapours are heavier than air and may spread along floors. Vapours may form explosive mixtures with air.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations.

### Notes on joint storage

Keep away from: oxidising agents, strong alkalis, strong acids.

## Additional information on storage conditions

Observe label precautions. Store between the following temperatures: 5 to 35°C (41 to 95°F). Store in a dry, cool and well-ventilated area. Keep away from heat and direct sunlight.

Keep container tightly closed.

Keep away from sources of ignition. No smoking. Prevent unauthorised access. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

### 7.3 Specific end use(s)

| Recommendations                      | : Not available. |
|--------------------------------------|------------------|
| Industrial sector specific solutions | : Not available. |
| Solutions                            |                  |

| SECTION 8: Exposure controls/p | personal protection       | n       |   |
|--------------------------------|---------------------------|---------|---|
|                                | Sewage Treatment<br>Plant | 10 mg/l | - |

#### 8.2 Exposure controls

| Appropriate engineering<br>controls | : Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If |
|-------------------------------------|---|
|                                     | these are not sufficient to maintain concentrations of particulates and solvent vapours below the OEL, suitable respiratory protection must be worn.          |

### Individual protection measures

| Hygiene measures    | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location. |
|---------------------|---|
| Eye/face protection | : Use safety eyewear designed to protect against splash of liquids.   |

# Eye/face protection

## Skin protection

## Hand protection

There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals.

The breakthrough time must be greater than the end use time of the product.

The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.

Gloves should be replaced regularly and if there is any sign of damage to the glove material.

Always ensure that gloves are free from defects and that they are stored and used correctly.

The performance or effectiveness of the glove may be reduced by physical/chemical damage and poor maintenance.

Barrier creams may help to protect the exposed areas of the skin but should not be applied once exposure has occurred.

| Gloves                          | : | Duration / breakthrough time: <1 hour,<br>Glove material: NBR, nitrile rubber, material thickness as splash protection: at least<br>0.2 mm, (EN374)<br>Glove material: NBR, nitrile rubber Material thickness for short-term contact: at least<br>0.5 mm, (EN374)   |
|---------------------------------|---|---|
|                                 |   | The recommendation for the type or types of glove to use when handling this product is based on information from the following source:  |
|                                 |   | Expert judgment   |
|                                 |   | The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment.   |
| Body protection                 | : | Personnel should wear antistatic clothing made of natural fibres or of high-<br>temperature-resistant synthetic fibres.   |
| Other skin protection           | : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection          | : | If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.  |
|                                 |   | Dry sanding, flame cutting and/or welding of the dry paint film will give rise to dust<br>and/or hazardous fumes. Wet sanding/flatting should be used wherever possible. If<br>exposure cannot be avoided by the provision of local exhaust ventilation, suitable<br>respiratory protective equipment should be used. |
| Environmental exposure controls | : | Do not allow to enter drains or watercourses.   |

# **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| <u>Appearance</u>                               |   |  |                      |  |

## 9.1 Information on basic physical and chemical properties

## 9.2 Other information

## 9.2.1 Information with regard to physical hazard classes

Further information Not available.

### 9.2.2 Other safety characteristics

Miscible with water : Yes.

Further information Not available.

room temperature (=20°C)

| <b>SECTION 10: Stabilit</b>                | y and reactivity   |
|--|--|
| 10.1 Reactivity                            | : No specific test data related to reactivity available for this product or its ingredients.                                     |
| 10.2 Chemical stability                    | : Stable under recommended storage and handling conditions (see Section 7).  |
| 10.3 Possibility of<br>hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.  |
| 10.4 Conditions to avoid                   | : When exposed to high temperatures may produce hazardous decomposition products.  |
| 10.5 Incompatible materials                | : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids. |
| 10.6 Hazardous<br>decomposition products   | : Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.        |
|  | Not applicable   |

# **SECTION 11: Toxicological information**

## 11.1 Information on toxicological effects

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the CLP Regulation (EC) No 1272/2008 and is classified for toxicological properties accordingly. See Sections 2 and 3 for details.

Exposure to component solvent vapour concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

Contains 3-aminopropyltriethoxysilane. May produce an allergic reaction.

# Acute toxicity

| Product/ingredient name      | Result               | Species       | Dose       | Exposure |
|------------------------------|----------------------|---------------|------------|----------|
|                              | LD50 Dermal          | Rabbit        | 13 g/kg    | -        |

# 12.5 Results of PBT and vPvB assessment

Readily

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758 STANDOBLUE BASECOAT MIX 138 SILVERDOLLAR COARSE

# **SECTION 12: Ecological information**

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : No known significant effects or critical hazards.

# **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

## 13.1 Waste treatment methods

| Product             |   |
|---------------------|---|
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
| Hazardous waste     | : Yes.  |
| Waste catalogue     |   |
| Waste code          | Waste designation   |
| 08 01 19*           | aqueous suspensions containing paint or varnish containing organic solvents or other hazardous substances   |
| Packaging           |   |
| Methods of disposal | The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.  |
| Type of packaging   | Waste catalogue   |
|                     | 15 01 10* packaging containing residues of or contaminated by hazardous substances  |
| Special precautions | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.   |
|                     |   |

# **SECTION 14: Transport information**

|                                    | ADR/RID        | ADN   | IMDG           | IATA           |

Additional information

| SECTION 14: Transport information                         |   |  |
|---|---|--|
| ADN   | : The product is only regulated as a dangerous good when transported in tank vessels.   |  |
| 14.6 Special precautions for user                         | : <b>Transport within user's premises:</b> always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage. |  |
| 14.7 Transport in bulk<br>according to IMO<br>instruments | : Not available.  |  |

# **SECTION 15: Regulatory information**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

### UK (GB)/REACH

# Annex XIV - List of substances subject to authorisation

# Annex XIV

None of the components are listed.

# Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions Not applicable. on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

### Seveso Directive

This product is not controlled under the Seveso Directive.

#### National regulations

| Product/ingredient name | List name | Name on list | Classification | Notes |
|-------------------------|-----------|--------------|----------------|-------|
|                         |           |              |                |       |

## International regulations

### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### **Montreal Protocol**

Not listed.

## Stockholm Convention on Persistent Organic Pollutants

Not listed.

| 15.2 Chemical safety | : | This product contains substances for which Chemical Safety Assessments are still |
