# Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758

# SAFETY DATA SHEET

Date of issue/Date of revision

: 13 March 2024

Version : 1.06

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier           |  |
|----------------------------------|--|
| Product name                     | : HP Multiprime 2K Primer - white M1                   |
| Product code                     | : 1.841.9101/E1  |
| Product type                     | : Liquid.  |
| Other means of<br>identification | : Not available.                                       |
|                                  | N8C1-N2Y8-2000-V557                                    |
| 1.2 Relevant identified uses     | s of the substance or mixture and uses advised against |

| Product use           | : Professional applications, Used by spraying.                    |
|-----------------------|---|
| Use of the substance/ | : Coating.  |
| mixture               | č   |
| Uses advised against  | : Product is not intended, labelled or packaged for consumer use. |

## 1.3 Details of the supplier of the safety data sheet

PPG Industries Italia S.r.l., Via Comasina, 121, 20161 Milano, Italy Tel: +39 02 6404.1 PPG Industries (UK) Ltd., Needham Road, Stowmarket, Suffolk, IP14 2AD, UK Tel: +44 (0) 1449 773 338

e-mail address of person : Product.Stewardship.EMEA@ppg.com responsible for this SDS

#### 1.4 Emergency telephone number

## **Supplier**

Company emergency telephone number : +39 02 6404.1 (0800-1700)

## **SECTION 2: Hazards identification**

2.1 Classification of the substance or mixture

Product definition : Mixture Classification according to UK CLP/GHS Flam. Liq. 3, H226 STOT SE 3, H336 Aquatic Chronic 2, H411

The product is classified as hazardous according to UK CLP Regulation SI 2019/720 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

## 2.2 Label elements

**Hazard pictograms** 

| Signal word              | : Warning  |          |
|--------------------------|--|----------|
| Hazard statements        | <ul> <li>Flammable liquid and vapour.</li> <li>May cause drowsiness or dizziness.</li> <li>Toxic to aquatic life with long lasting effects.</li> </ul> |          |
| Precautionary statements |  |          |
| Prevention               | : Keep away from heat, hot surfaces, sparks, open flames and other ignition s<br>No smoking. Avoid release to the environment. Avoid breathing vapour. | sources. |
| Response                 | : Collect spillage. IF INHALED: Call a POISON CENTER or doctor if you feel   | unwell.  |
| English (GB)             | United Kingdom (UK)  | 1/17     |

| Code        | : 1.841.9101/E1         | Date of issue/Date of revision | : 13 March 2024 |
|-------------|-------------------------|--------------------------------|-----------------|
| HP Multipri | me 2K Primer - white M1 |                                |                 |
|             |                         |                                |                 |

## SECTION 2: Hazards identification

| Storage   | 1  | Not applicable.  |
|---|----|--|
| Disposal  | :  | Dispose of contents and container in accordance with all local, regional, national and international regulations.<br>P210, P273, P261, P391, P304 + P312, P501 |
| Supplemental label<br>elements  | :  | Not applicable.  |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | :  | Not applicable.  |
| Special packaging requirem  | en | <u>ts</u>  |
| Containers to be fitted<br>with child-resistant<br>fastenings   | :  | Not applicable.  |
| Tactile warning of danger   | :  | Not applicable.  |
| 2.3 Other hazards   |    |  |
| Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | :  | This mixture does not contain any substances that are assessed to be a PBT or a vPvB.  |
| Other hazards which do not result in classification   | :  | Prolonged or repeated contact may dry skin and cause irritation.   |

# **SECTION 3: Composition/information on ingredients**

| 3.2 Mixtures :                               | Vixture  |             |   |         |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. Xylene: Several REACH registrations cover the REACH registered substance with xylene isomers, ethylbenzene (and toluene). The other REACH Registrations include: 01-2119555267-33 reaction mass of ethylbenzene and m-xylene and p-xylene, 01-2119486136-34 Aromatic hydrocarbons, C8, 01-2119539452-40 reaction mass of ethylbenzene and xylene. Type

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

This mixture contains  $\geq$  1% of titanium dioxide. The Annex VI classification of titanium dioxide does not apply to this mixture according to Note 10.

Occupational exposure limits, if available, are listed in Section 8.

#### SUB codes represent substances without registered CAS Numbers.

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact                | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.  |
|----------------------------|--|
| Inhalation                 | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.   |
| Skin contact               | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br>or use recognised skin cleanser. Do NOT use solvents or thinners.  |
| Ingestion                  | : If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

#### **4.2 Most important symptoms and effects, both acute and delayed**

| Potential acute health effects |   |
|--------------------------------|---|
| Eye contact                    | : No known significant effects or critical hazards.                                     |
| Inhalation                     | : Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. |
| Skin contact                   | : Defatting to the skin. May cause skin dryness and irritation.                         |
| Ingestion                      | : Can cause central nervous system (CNS) depression.                                    |
| Over-exposure signs/sympto     | oms   |

| Enc  | ilish ( | (GR) |

| LIIV | 11311   |      |

| Code : 1.841.9101/E1            | Date of issue/Date of revision | : 13 March 2024 |
|---------------------------------|--------------------------------|-----------------|
| HP Multiprime 2K Primer - white | M1                             |                 |

## SECTION 4: First aid measures

| Eye contact               | : No specific data.   |
|---------------------------|---|
| Inhalation                | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness     |
| Skin contact              | : Adverse symptoms may include the following:<br>irritation<br>dryness<br>cracking  |
| Ingestion                 | : No specific data.   |
| 4.3 Indication of any imm | ediate medical attention and special treatment needed   |
| Notes to physician        | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
|                           |   |

Specific treatments : No specific treatment.

## **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media        |  |
|--------------------------------|--|
| Suitable extinguishing media   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam. |
| Unsuitable extinguishing media | : Do not use water jet.  |

## 5.2 Special hazards arising from the substance or mixture

| Hazards from the substance or mixture          | : Flammable liquid and vapour. Runoff to sewer may create fire or explosion hazard.<br>In a fire or if heated, a pressure increase will occur and the container may burst, with<br>the risk of a subsequent explosion. This material is toxic to aquatic life with long<br>lasting effects. Fire water contaminated with this material must be contained and<br>prevented from being discharged to any waterway, sewer or drain. |
|--|--|
| Hazardous combustion<br>products               | : Decomposition products may include the following materials:<br>carbon oxides<br>sulfur oxides<br>phosphorus oxides<br>metal oxide/oxides   |
| 5.3 Advice for firefighters                    |  |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.   |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.  |

## **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapour or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
|--------------------------------|--|
|                                | inadequate. Put on appropriate personal protective equipment.  |

| Code : 1.841.9101/E1<br>HP Multiprime 2K Primer - w | Date of issue/Date of revision         : 13 March 2024           nite M1   |
|---|--|
| <b>SECTION 6: Accident</b>                          | al release measures  |
| For emergency responders                            | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| 6.2 Environmental precautions                       | : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air). Water polluting material. May be harmful<br>to the environment if released in large quantities. Collect spillage.  |
| 6.3 Methods and material for                        | containment and cleaning up  |
| Small spill   | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill   | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
| 6.4 Reference to other sections                     | : See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8). Do not ingest.<br>Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Avoid<br>release to the environment. Use only with adequate ventilation. Wear appropriate<br>respirator when ventilation is inadequate. Do not enter storage areas and confined<br>spaces unless adequately ventilated. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when not in use.<br>Store and use away from heat, sparks, open flame or any other ignition source. Use<br>explosion-proof electrical (ventilating, lighting and material handling) equipment.<br>Use only non-sparking tools. Take precautionary measures against electrostatic<br>discharges. Empty containers retain product residue and can be hazardous. Do not<br>reuse container. |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidising materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758

| Code         | : 1.841.9101/E1         | Date of issue/Date of revision | : 13 March 2024 |
|--------------|-------------------------|--------------------------------|-----------------|
| HP Multiprin | me 2K Primer - white M1 |                                |                 |

## **SECTION 7: Handling and storage**

## 7.3 Specific end use(s)

See Section 1.2 for Identified uses.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

## **Occupational exposure limits**

| Product/ingredient name         | Exposure limit values   |
|---------------------------------|---|
| n-butyl acetate                 | EH40/2005 WELs (United Kingdom (UK), 1/2020).                   |
|                                 | STEL: 966 mg/m <sup>3</sup> 15 minutes.                         |
|                                 | STEL: 200 ppm 15 minutes.                                       |

 Eye/face protection
 : Safety glasses with side shields.

Hand protection
 Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. When prolonged or frequently repeated contact may occur, a glove with a protection class of 6 (breakthrough time greater than 480 minutes according to EN 374) is recommended.

| Code        | : 1.841.9101/E1         | Date of issue/Date of revision | : 13 March 2024 |
|-------------|-------------------------|--------------------------------|-----------------|
| HP Multipri | me 2K Primer - white M1 |                                |                 |

## **SECTION 8: Exposure controls/personal protection**

|                                 | When only brief contact is expected, a glove with a protection class of 2 or higher (breakthrough time greater than 30 minutes according to EN 374) is recommended. The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment.  |
|---------------------------------|--|
| Gloves                          | : For prolonged or repeated handling, use the following type of gloves:  |
|                                 | Recommended: neoprene, natural rubber (latex), butyl rubber, polyvinyl alcohol (PVA), Viton ${ m \ref{R}}$   |
|                                 | May be used: Chloroprene, nitrile rubber   |
| Body protection                 | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.  |
| Other skin protection           | : Appropriate footwear and any additional skin protection measures should be selected<br>based on the task being performed and the risks involved and should be approved by a<br>specialist before handling this product.  |
| Respiratory protection          | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Wear a respirator conforming to EN140. Filter type: organic vapour (Type A) and particulate filter P3 |
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |

## **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

# Information on likely routes : Not available. of exposure

## Potential acute health effects

| Eye contact  | : No known significant effects or critical hazards.                                     |
|--------------|---|
| Inhalation   | : Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. |
| Skin contact | : Defatting to the skin. May cause skin dryness and irritation.                         |
| Ingestion    | : Can cause central nervous system (CNS) depression.                                    |

## Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : No specific data.   |
|--------------|---|
| Inhalation   | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>dryness<br>cracking  |
| Ingestion    | : No specific data.   |

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

| <u>Short term exposure</u>     |                  |
|--------------------------------|------------------|

## 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### 12.6 Other adverse effects : No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### **13.1 Waste treatment methods**

| Product             |  |
|---------------------|--|
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. |
| Hazardous waste     | : Yes.   |

## Waste catalogue

| 00.04.44*  |     |
|--|-----|
| 08 01 11* waste paint and varnish containing organic solvents or other hazardous substar | ces |

#### Packaging

Methods of disposal

: The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

| Type of packaging   | Waste catalogue  |  |  |
|---------------------|--|--|--|
| Container           | 15 01 06   | mixed packaging  |  |
| Special precautions | taken when ha<br>Empty contain<br>residues may<br>container. Do<br>thoroughly inte | and its container must be disposed of in a safe way. Care should be<br>andling emptied containers that have not been cleaned or rinsed out.<br>Hers or liners may retain some product residues. Vapour from product<br>create a highly flammable or explosive atmosphere inside the<br>not cut, weld or grind used containers unless they have been cleaned<br>ernally. Avoid dispersal of spilt material and runoff and contact with<br>s, drains and sewers. |  |
